SUBJECT: Additions of Standardized Items to the List of Equipment
for the Communications of Overseas Support Plan

1. Confirming our discussions and at the request of the Chief of Procurement, the undersigned is submitting for your consideration the question on how best to revise the existing list of standardized equipment previously approved by the Deputy Director of Administration for procurement purposes.

2. In view of the fact that the Office of Communications finds it necessary to add items from time to time which in effect constitutes directed procurement from a sole source of supply, this office is required to request your opinion on how procurement can be accomplished with proper regard to official propriety.
